

## iopak ahead of the pack

This brand new batch type emulsifier is fitted with a Slotted Disintegrating Head.

It is used for many applications but is very useful for the disintegration of fibrous materials such as animal and vegetable tissue. It is also used as well for the disintegration and solubilisation of elastic materials such as rubbers and polymers.

Eliminate agglomerates and "fish eyes" Create stable emulsions and suspensions  
Reduce particle size  
Rapidly dissolve solids  
Accelerate reaction  
Stand is an optional extra.

# HIGH SHEAR BATCH MIXER/EMULSIFIER 7.5kW: TRH140-7.5

## HIGH SHEAR BATCH MIXER/EMULSIFIER 7.5 kW TRH140-7.5

STOCK ITEM: 12565G

### Specifications

- Working Capacity: 200-800L @ 2,800RPM
- Motor Size: 7.5kW 3 Phase
- Contact material SUS316
- Shaft length 850mm
