

iopak ahead of the pack

This automatic IOPAK Sachet Packer comes COMPLETE with its own VOLUMETRIC CUP FILLER AND PISTON PUMP.

It has a host of new features which make it a winner with contract packers who run their machines at maximum capacity!

Product Application
Granules & Powders (Mostly Free Flowing) Liquids, Sauces, Shampoo etc

FEATURES - WHICH DIFFER FROM OUR OLDER MACHINES

- Stepper motor used for print registration.
- The jaws move in and out horizontally saving wear and tear.
- Knife uses guillotine action (independent of jaws) giving clean cut action.
- Blades remain sharp for much longer.
- Dancing arm for film tensioning.
- Cold pull down means no burn-on
- Accurate temperative-stationary thermocouple
- Quiet as a mouse!
- Simple to operate-change bag size on touchscreen
